

MISKATONIC UNIVERSITY!

The usual nonsense about errors: Last issue we noted a RUSSIAN WAR on the supply center chart, which was, of course, just not the true state of Nature. Now! A Player told me about it, too. How Rare...

I Suppose that I can explain myself on this matter of the M.U. system of displaying games: All province names and order-instructions are typed in a standard combination of upper/lower case letters. Any orders which fail of execution are underlined, and the province where the unit winds up is included within parenthesis.

PLAYERS IN 1966MB SHOULD SEND IN FALL, 1811, ORDERS BY THE DEADLINE SET AT THE END OF THIS ISSUE OF MISKATONIC UNIVERSITY!
